聖マリア寮 ST. MARY'S DORMITORY

St. Mary's Dormitory, located next to the Hadano Campus, opened in 1973, the same year Sophia Junior College Division was founded. The four-story reinforced concrete dormitory could accommodate about 100 students, with all residents having their own private rooms. Each room was equipped with air conditioning, a bed, locker, bookshelf, desk, chair, and study lamp. The dormitory also included a chapel, Japanese-style room, dining hall, and shared baths, washrooms, and laundry facilities on each floor. Telephone calls were received through a call system, and students sometimes had to wait in line for their turn on weekends.

The dormitory was operated by the Sisters of St. Mary, who had extensive experience in women's education. It closed in March 2020.
