

上智社会福祉専門学校には保育士科、社会福祉・児童指導員科、介護福祉科などがありました。そのため、学内にはたくさんの実習室が完備されていました。9号館地下という、目立たない場所にありましたが、調理や介護の実習の授業でお世話になりました。

9号館 地下 の 実習室

介護実習室

The Sophia School of Social Welfare offered programs in childcare, social welfare and child guidance, and care work. To support practical training, the school was equipped with facilities such as skills-training rooms. Located in the basement of Building No. 9, these facilities were somewhat hidden from view, but they played an important role in classes for cooking, caregiving, and other hands-on training. Many students spent countless hours there developing the skills they would later use in their professions.
